PROFESSIONAL SUMMARY

Highly motivated aspiring Junior Web Developer with a strong foundation in modern web technologies (JavaScript, Next.js, Tailwind CSS) and backend automation (Python, SQL). Experienced in full-stack application development, API integrations, and deploying scalable web solutions. Combines a background in digital business with hands-on technical expertise to build user-centric, efficient, and performance-driven web applications.

TECHNICAL SKILLS

- **Web Development:** JavaScript, Next.js, Tailwind CSS, HTML/CSS
- **Programming & Backend:** Python, SQL, RESTful API Integration
- **Tools & Deployment:** Git, GitHub, Vercel
- **Additional Skills:** Custom AI Pipelines, Headless Automation Systems

KEY PROJECTS & DEVELOPMENT SYSTEMS

Nexus Market Analyzer – Web Dashboard

- Developed an interactive dashboard interface and web application to systematically process market data into actionable insights.
- Integrated backend analytical models with front-end components to evaluate barrier to entry and formulate optimal pricing strategies.

End-to-End Headless Automation System

- Developed an independent backend-only automation system from scratch.
- Implemented JavaScript and Python programming logic to handle headless workflows and API integration (YouTube API).

EXPERIENCE

Freelance Web Developer

September 2026 - Present

- **Metroscope:** Developed and deployed an educational mentoring ecosystem and competition preparation web application using Next.js. Architected the front-end interface and managed full deployment lifecycles via Vercel.
- **TALASWARA:** Built a modern e-commerce platform and visual brand identity for a sustainable fashion brand, developing modern web interfaces using Next.js and managing deployments to Vercel via GitHub.

Music Annotator | BeatPulse Labs

2026

- Performed remote audio data annotation, analysis, and curation to support machine learning model development and audio processing systems.

Class Facilitator for Hybrid University Courses | Cakrawala University

2026

- Managed technical infrastructure for hybrid classes, broadcasting hardware/software (streaming), and student attendance data backup systems.

EDUCATION

Cakrawala University

2024 - Present

- Bachelor of Digital Business (5th Semester) — Specialization: Digital Marketing
